

ZEWDU TAYE BIRHANU

AI | ML & WEB DEVELOPER

Turning Data into Insights, Ideas into Impact!!!

➤ ABOUT ME

Motivated AI/ML and developer with a strong passion for Artificial Intelligence, Machine Learning, Data Science, and Web Development. I enjoy turning real-world problems into practical technology solutions, with hands-on experience developing AI/ML projects, web applications, and data driven systems. My projects include EthioMove, an AI-powered smart transportation platform for Addis Ababa, as well as school digital portals and predictive ML models. I am a creative problem-solver, continuous learner, and technology enthusiast committed to using innovation to create meaningful community impact.

➤ FEATURED PROJECTS

1. **EthioMove AI-Powered Smart Transportation Assistant**

AI/ML smart transportation platform designed for Addis Ababa. Features include traffic congestion prediction, travel-time prediction, journey planning, public transport assistance, road-hazard detection, and smart-city analytics.

2. **ML Prediction Model — EAIL Project**

Developed a machine learning prediction model involving data processing, analysis, model training, and evaluation as part of an Ethiopian Artificial Intelligence Institute learning program.

3. **School Website & Digital Portal**

Designed and deployed a responsive web portal for Addis Ketema General Secondary School to improve digital communication and access to school information.

4. **Personal Portfolio Website**

Built and deployed a modern portfolio website on Vercel showcasing projects, technical skills, and credentials.

5. **Web-Based Library Management System**

Developed a web-based concept for cataloging books, tracking borrowing activities, and organizing library information.

6. **Ethiopian Cultural Quiz Game**

Created a Python-based interactive quiz application with automated scoring, input validation, and Ethiopian cultural knowledge.

➤ EDUCATION

• **Addis Ketema General Secondary School**

Natural Science Stream | Completed June 2026

Addis Ababa, Ethiopia

• **Ethiopian Artificial Intelligence Institute (EAIL)**

AI || Machine Learning Learning Program & Practical

Project Experience | 2026

➤ LEADERSHIP & VOLUNTEERING

➤ HONORS & COMPETITIONS

National Mathematics Competition Participant
High School Math & Natural Science Competition Award
Academy Competition Excellence Certificates

• Student Leader & Class Monitor (Grade 9 – Present)
• Volunteer in Korean Culture & Community Appreciation
• Active participant in STEM & Tech learning activities
• Grade 9: Class Monitor & Gender Club Leader
• Grade 11: Science Fair Main Leader & Chemistry Laboratory Member
• Grade 12 : Library Monitor & Volunteer Member

➤ SKILLS

- **Programming Languages:** Python, JavaScript, HTML5, CSS3
- **AI & Data Science:** Machine Learning (ML), Deep Learning, Data Analysis, Predictive Modeling, Computer Vision
- **Modeling Web Development & Tools:** Frontend Web Development, Git, GitHub, Vercel,
- **Specialized Fields:** Cloud Security, Indicators of Compromise (IOC) Fundamentals

➤ LANGUAGE

Language

1. Amharic
2. English
3. Afaan Oromoo / Agewegna
4. Korean / Japanese
